PROJECTS

Mail Box Website
Created a dummy mail box where user can send and receive mails.
 Integrated react-draft-wysiwyg editor for composing new email.
 User can see all the mails they have sent and received by using sidebar tabs.
 Integrated the seen feature where users get to know if they have already seen the mail or not.
 If another user logged with his email and try to edit email in the storage and wants edited email then if automatically logouts from the mail box.
